

**OVERVIEW** A degree in psychology enables students to understand how people think and act—and how to help and motivate them. It provides the tools needed for many different areas of life such as conflict management and ethical reasoning, and quantitative analysis skills useful for many occupations, including project development and project management.

Psychology majors gain perspective on their own experiences, develop sympathetic understanding of others, and learn ways to help people in need.

**The B.A. in Psychology degree is available fully online.**

Please contact the office of Admission at [online@houghton.edu](mailto:online@houghton.edu) for further information.

**APPLY TODAY** at [www.houghton.edu/online/apply](http://www.houghton.edu/online/apply)

For more than 30 years, Houghton College has been helping professionals and non-traditional students achieve their academic and career goals.

The staff at Houghton is always willing to help. My professors are even available at night and on the weekends and keep closely involved in online class discussions.

–Faye Smith '18
